GOOD ADVICE

Don't be what you ain't,
Jes' be what you is,
Cause if you is what you ain't
Den you ain't what you is
If you is jest a little tad-pole
Don't try to be a frog.
If you is jest a tail—
Don't try to wag the dog.
You can always pass the plate
If you can't exhort and preach,
If you is jest a little pebble
Don't try to be the beach
Don't be what you ain't
Jest be what you is
Cause the man that plays square
Am gwine to his
Don't be what you ain't
Jest be what you is
Cause if you is what you ain't
Then you ain't what you is.

Read the advertisement of S. L. & Downs Co., on the first page of today's paper.

Several new signs are adorning the fronts of some of our business houses on Main Street — another evidence of awakening pride in our town.

There is no place in Belmont for the “knocker.” Our latchstring is on the outside to the booster, but the hammer artist is advised to keep on traveling.

The editor of *The Times* feels especially proud of the many nice compliments paid to our paper by members of different women's organizations of the town. No enterprise can fail when it has the endorsement of the pure Christian women of the community.

See announcements of our clubbing arrangement with *Memphis Weekly Commercial Appeal*, through which we are able to send that paper and *The Times* to any address twelve months for \$ 1.25 — twenty- five cents less than the former subscription price of *The Times* alone.

We have not had the space to speak our sincere thanks to the individual firms in Belmont who are so generously patronizing our advertising columns. They are all wide-awake, accommodating and reliable, and we will guarantee to our readers that when they patronize any one of these merchants they will receive fair treatment.

Our splendid railroad depot — the most handsome on the Birmingham division of the I. C. system; our \$20,000 to story brick hotel, steam heated and electrically lighted; our splendid high school building, second to none in northeast Mississippi, all bear witness to the enterprising spirit of our citizens, and strengthens our faith in the town's ability to do still greater things.

One good law has been passed, requiring the tax assessor of each County to give a 10 days printed notice in some County paper or by printed or written circulars that he will visit each district in the County on certain days and that the property owner must come to him and tell him of their personal and real holdings. At the proper time, the assessors will notify the people when they will make their rounds. — *Belzoni Banner*

The Belmont Times, under its new management, reached us last week. Mr. J. L. Hallmark is the owner and Mr. John P. Johnson, editor. The paper presents a splendid appearance, and it is well edited and should have a liberal support from the Belmont people. No doubt the new management will keep *The Times* up to its former high standard. — *Booneville Banner*

EASTERN STAR CELEBRATES

The James Chapter, Order of the Eastern Star, of Red Bay, Ala., celebrated their 6th Anniversary on Tuesday evening, the 16th at which time Belmont Chapter were guests of honor. The hall was beautifully decorated with candles and cut flowers.

After the beautiful opening march, the visitors were introduced. An appropriate address of welcome was given by Sister Bertha Clay, Worthy Matron. It was responded by Sister Nina Shook, Past Matron of Belmont Chapter, who was given a seat in the East. Short papers were read by Brother E. A. Smith on the "Duties of the Worthy Matron's Husband," and by Brother W. M. Clay on "The Fault of the Secretary," both of which were very much applauded.

The anniversary cake was covered with twelve candles, one for the Worthy Matron and Patron of each of the six, and as their names were called they were asked to come forward, light their candle, and cut the cake. This was beautifully done, and on account of the absence of some of their past matrons, Sister Grace Bostick and Sister Nina Shook were asked to fill these places. A beautiful red carnation was given to these.

The guests were then asked to find places at the table, where a delicious two-course menu was served. During intermission, Miss Dixye Dexter recited "A Red Headed Girl," "Ma's Tools," by Annie Mae Smith, and "Matrimonial Experience," by Mary Nell Smith, all of which were thoroughly enjoyed. Short talks were made by Dr. A. E. Bostick, M. Arthur Shook and E. A. Smith.

Presiding officers were Mrs. Bertha Clay, Worthy Matron; Dr. Weatherford, W. P.; Mesdames Ollie Weatherford, Associate W. M.; Florence Copeland, Secretary; Exie Whitfield, Treasurer; Elitha Robinson, Cond.; Geneva Smith, Asso. Cond.; Reba Killingsworth, Marshal; Connie Elledge, Adah; Mabel Lantrip, Ruth; Lester Smith, Esther; Golda Weathersby, Martha; Ruby Hall, Electra; Nora Brooks, Warden; John Yieling, Sentinel.

SCHOOL ITEMS

(By O. C. Miller)

The country field meet will be at Belmont, Friday March 12th. The committee has made several changes in the former plans. One Change is that the literary work is 60 per cent of the total with reference to points, and the athletic events 40 per cent.

The examinations will be held on February 27th, at Iuka, Burnsville, Tishomingo, Paden and Belmont. The examinations will cover two-thirds of the year's work in high school subjects, and five months work in the public schools. The banners will be awarded at Belmont at the field meet.

The basketball tournament will be played off on Saturday, March 5th at Iuka and Belmont.

It is hoped that every school will give its pupils an opportunity to compete in some of the features, especially in the literary work.

Under present conditions, the term this year will be five and one-half months. Last year there was an average of 40 pupils more in school each day with a six-month term than there was the year before with a five-month term. This proves conclusively that a six-month term is practicable.

Left-Hand Drive—

Originally introduced by Henry Ford on the Model T car in 1908 and since adopted for most American-made cars.

Three Point Motor Suspension—

First used by Henry Ford in 1903, and a feature of the Model T power plant for eighteen years.

Dual Ignition System—

Dual ignition is provided for Ford cars, (1) the Ford magneto and (2) the generator and storage battery. This has been a great factor in establishing the Ford reputation for reliability.

Planetary Transmission—

Costs more to build than the conventional sliding gear type but gives better light car control.

Multiple Disc-in-oil Clutch—

The multiple disc clutch is generally conceded to be the best and smoothest type for any car. The Ford clutch runs in oil.

Thermo-Syphon Cooling System—

Extremely simple—always efficient. No water pump to require packing. Circulation of water is governed entirely by engine temperature.

Simple, Dependable Lubrication—

Exceedingly simple, combining the splash principle with gravity flow. No pump required.

Torque Tube Drive—

Henry Ford originated the Torque Tube in 1908—a driving principle now embodied in many of the highest priced cars.
