May Draft Call Set at 27,600

WASHINGTON—The Department of Defense has requested the Selective Service System provide 27,600 inductees in May 1969.

Of this total, 25,600 will be assigned to the Army and 2,000 to the Marine Corps.

This request supports currently approved force levels and will assure a timely flow of replacements for men completing their terms of service, the Department of Defense said.

Corinthian’s Brother Eye Transplant Recipient

HOUSTON (UPI)—The brother of a Corinth man is progressing satisfactorily today from what was believed to be the world’s first transplant of a complete eye.

The operation was performed Tuesday on John Madden, a 55-year-old Conroe, Texas, photographic studio owner. He is the brother of Herman Madden of Corinth.

Madden, who received the new right eye in a one-hour operation at Methodist Hospital, will have to wait three weeks to find out if he will be able to see with the grafted organ. In the meantime, both his eyes are stitched shut.

Directing the surgery was Dr. Conrad D. Moore, assistant director of the Institute of Ophthalmology and assistant professor of ophthalmology at Baylor College of Medicine. Moore, who said that so far as he knows this was the first transplant of the whole eye, said rejection would not be so much of a problem as with a heart or kidney since an eye does not have so many blood vessels.

The main question, Moore said, was whether the nerves were properly connected.

The eye came from O. B. Hickman, a 55-year-old Houston man who died Monday of a brain tumor.

NEMJC Awarded \$390,000 Higher Education Grant

Northeast Mississippi Junior College at Booneville was awarded a \$390,000 federal Higher Education Title One grant Tuesday, Rep. Jamie Whitten announced.

College President Howard White said the money would be used as part of a \$900,000 building program which includes a new liberal arts building, a classroom building, and an expansion of the present library.

White said the money “will be co-mingled with an equal amount, subject to approval of Appalachia.” The remainder of the funds—about \$200,000—would be financed by the junior college district, which includes Prentiss, Alcorn, Tippah, Union, and Tishomingo Counties.

The total expansion will involve 57,000 square feet in new building and an 8,145 square feet addition to the library.

White pointed out that bids for the construction project could not be considered until final approval is granted by Appalachia to the project.

He said the new buildings would provide facilities for the expanding enrollment which is currently 1,150. “We are crowded at the present time,” he explained.
